WHY WFP TRUESTYLE TRIM & FASCIA BOARDS IS THE BEST CHOICE

WFP TRUESTYLE trim and fascia boards is our premier brand of finishing wood products. Favoured by architects, builders, and discerning homeowners, it is the consistently dependable choice that brings a timeless beauty and distinctive, natural aesthetic to homes and commercial properties. As the world's largest supplier of Western Red Cedar, all Western Forest Products cedar products are made with the highest quality fiber and craftsmanship on the market.

FINISHING & MAINTENANCE

Ultimately, the choice to finish your Western Red Cedar project is yours.

- ▶ Western Red Cedar can be allowed to weather naturally to a silvery grey look, or a wide range of stains and coatings can be applied to ensure maximum performance.
 - ▶ For best results coat all six sides before installation.
 - ▶ New cedar decking that is going to be finished should be protected from the weather before finish has been applied.
 - ▶ Allow product to acclimatize to the environment where it will be installed to avoid unwanted shrinkage or expansion.
 - ▶ Fasteners with corrosion resistance should be used. Hot-dipped galvanized or stainless steel.
 - ▶ Maintain your decking by keeping it free of dirt and debris. Avoid leaving objects like planters on your deck over the winter.
 - ▶ Important Note: Never power-wash a deck because it damages the wood fibres.
- These recommendations are provided by the Western Red Cedar Lumber Association (WRCLA). For more information on finishing and maintenance, please visit realcedar.com/decking/finishing-choices.

Western Forest Products® is a leading forest products company that manufactures high-quality wood products and sustainably manages forests.
